## GMB PHOTOGRAPHY WEDDING PHOTOGRAPHY

### About Us

We are a full time photographic studio with extensive experience in wedding, portrait and commercial photography. We have covered a wide range of wedding styles over the years from relaxed/informal, reportage to traditional.

We like to work closely with you to help plan the photographic style that meets your specific needs for your special day. We want the images we capture to give you pleasure for years to come.

Our aim is to photograph your day without any fuss or intrusion.

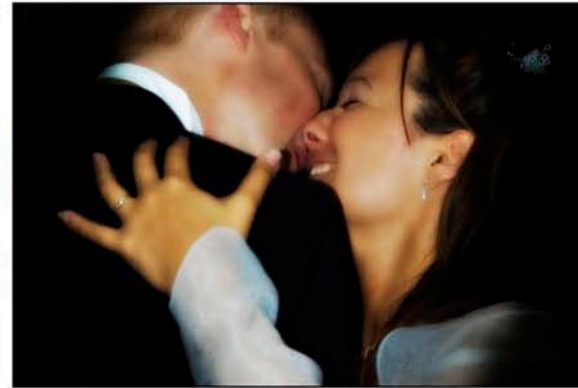

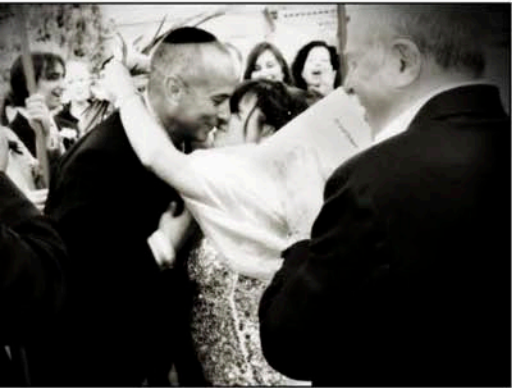

Today's couples often demand a far more relaxed approach, your pictures should be a complete storybook effect instead of something that has been stage managed.

### BEFORE THE WEDDING

We will usually visit the wedding venue prior to the big day to ensure we are familiar with the surroundings as well as holding an informal meeting to discuss arrangements for the day and finalise details for the photographic coverage

## CREATIVITY

Our photographers specialise in creative photography. They have experience in various imaging disciplines from advertising photography digital imaging to wedding and post production photo retouching

## WE USE ONLY THE BEST EQUIPMENT

We use the most up to date high resolution photographic equipment for our weddings. We carry lighting gear if required to ensure uninterrupted coverage.

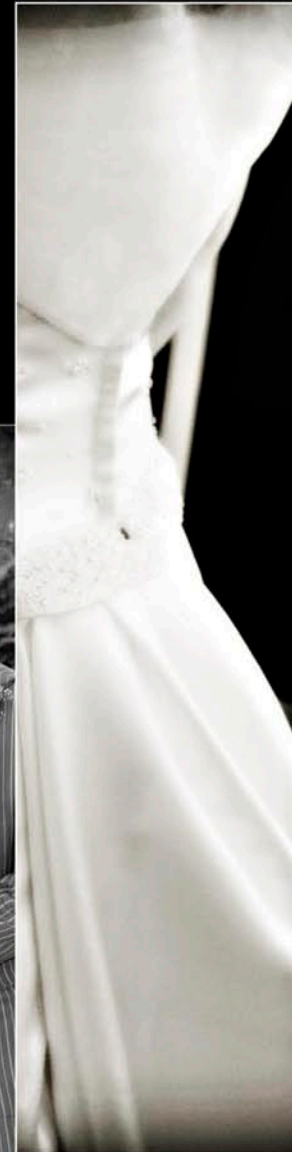

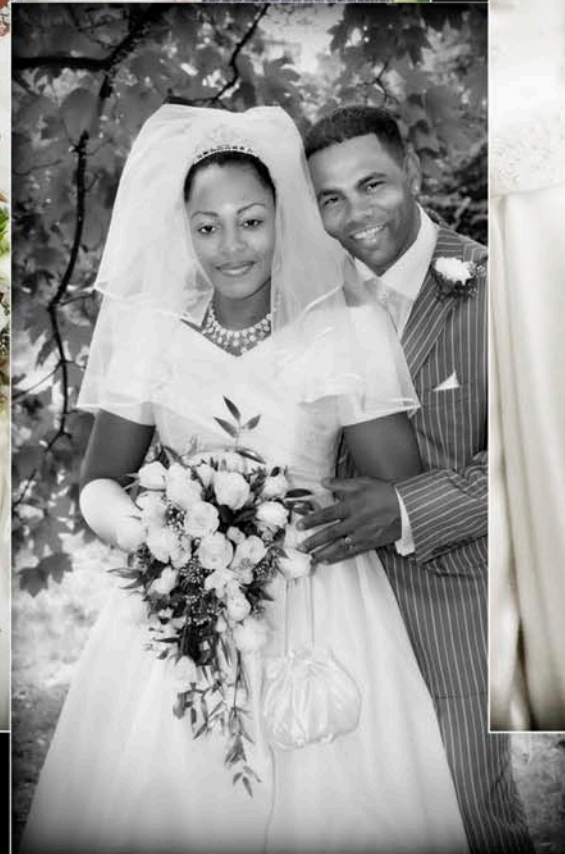

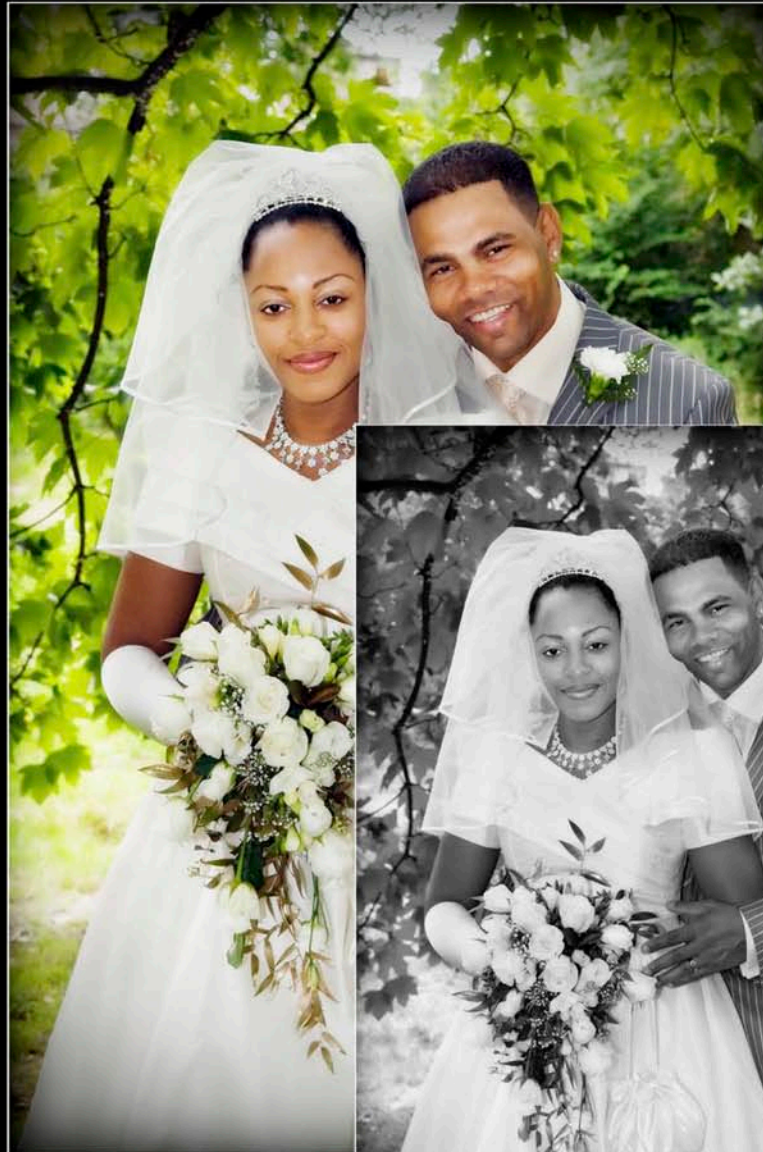

*"Photography is a way of feeling, of touching, of loving. What you have caught on film is captured forever. It remembers little things, long after you have forgotten everything."*

### PREVIEWING YOUR WEDDING PHOTOGRAPHS

Following your wedding you will be given a proof album containing your printed images in a 6x4 inch format. *(excludes Silver Package with online gallery only)*

This proof album is yours to keep. All images are numbered making it easy for you to select your favourite photographs.

### **OUR STYLES**

Our photographic style for weddings is contemporary and tailored to your needs as we like you to decide the type of coverage for your wedding. We shoot in colour however black and white and sepia versions of images can be viewed in your personal online proof gallery.
